ABOUT THE EVENT

Climb from Kouty to Everest" is an all-day sports and hiking challenge where participants complete repeated climbs along the cable car line, accumulating vertical meters that correspond to iconic peaks around the world.

Before the start, each participant or team chooses their peak. Each peak represents a designated number of climbs that need to be completed during the day.

This is not a race against others. Everyone chooses their own pace, their own strategy, and their own goal. The important thing is to reach the peak you choose.
